

Tag Demment

2008 Inductee

Tag restarted a modest baseball career at age 42 in the Woodland Roy Hobbs League and found a hitting stroke based mainly on a resident slap shot from his hockey days. He played on several league championship teams in Woodland and two MSBL world championship teams that represented Sacramento. He was a very good pitcher, played outstanding defense, was an excellent lead off man and could steal bases. Tag consistently led off World series games with extra-base hits. He made contributions in coaching youth baseball and leading the building of Lee Field which is the home of the MSBL Roy Hobbs League in Woodland. Tag is an excellent teammate and is the consummate “complete package”.
